Width: 60 cm (23.6")

## Description

Special Edition hand-finished with 100 gold leafed stars/flowers.

Our incredible brains contain billions of synapses that process our myriad thoughts, searching for answers to the complexities of life and everything else within the observable cosmos - a space that contains billions of galaxies, each containing billions of stars. And all of this, and all of us, are inextricably linked by the matter and forces within it all.

This work seeks to encapsulate all that, with over 100 tiny flowers in the form of stars at the ends of the tendrils reaching out into the ether.

Giclée print on Somerset Rag 308gsm, made from 100% cotton fibre using a traditional mould machine. Limited Edition prints all have straight cut edges.

Special Edition of 10 with hand embellished 22k moon gold leaf added to each of the stars.

Signed by the Artist.

'Own Art' Option Available - Contact the gallery for further information.
