Description

Conservation Framed with AR70 Glass.

London skyline designed in 2017, based on Kristjana's first ever skyline print edition. This very architectural wall art skyline features iconic buildings and landmarks of the great city of London. Kristjana brings it to life with old cockney rhyming slang and old existing road names in London. Some of them build up the financial area of London as it is today and others simply had interesting names, like the very sad gin lane.
Growing up in Iceland, where there are very few tall buildings, the impact the London skyline had on Kristjana was massive. She is truly inspired by this great city, and working on London themed artwork is a passion of hers.

Giclée on Matt Smooth Fine Art Cotton 300 gsm.
